

ENERGIZE MISSOURI

MISSOURI DEPARTMENT OF NATURAL RESOURCES

Building Energy Standards are Beneficial for Missouri.

Workshop Dates & Locations

January 24 - 25, 2012

Kansas City
Four Points by Sheraton
Kansas City Airport

Energize Missouri Building Energy Standards Workshops will illustrate the far-reaching benefits associated with adopting and enforcing the latest International Energy Conservation Code (IECC) in an attempt to gain a stronger statewide involvement.

If all municipalities in Missouri adopted and enforced the model energy code statewide in 2011, the state would have saved \$318 million annually in energy costs by 2030.

Workshop Topics

- Residential Buildings: Homeowner and Contractor Awareness of the 2009 IECC
- Residential Buildings: Residential Remodeling and Additions for 2009 IECC
- Commercial Buildings: Commercial Requirements for the 2009 IECC and 90.1-2007
- Commercial Buildings: Resource Inventory and Lessons Learned for the Commercial Portion of the 2009 IECC and 90.1-2007
